

A woman in a dark red, off-the-shoulder dress is shown from the back, holding a large bouquet of vibrant red paper flowers. She is also carrying a long, cylindrical red paper scroll. The background is a soft-focus outdoor setting. The image is partially framed by a dark purple, torn-edge graphic on the left side.

*Botanical Props  
Created by*

*Ling Warlow*  
PAPER ARTIST

## Paper botanist Ling Warlow creates extraordinary floral props using paper, wire and glue.

Ling creates plants and flowers, large and small, as props for film and photoshoots. Focussing on British Wildflowers, her sculptural botanical art is incredibly detailed.

Ling's creative practice embraces sustainability through both natural colour, dyeing her papers using found and foraged ingredients, and being plastic free.

Ling's work has been commissioned by ITV and featured by National Museums Liverpool. Her work has been used by acclaimed stylists and award winning creative directors on film and photographic projects. It was also published in BRAND YOU magazine.

Ling was given a solo exhibition for five weeks at World Museum Liverpool featuring 'Nature's Palette', a project celebrating diversity for Eurovision2023 with the national flowers of all competing countries created from paper Ling coloured with natural dye.

*In addition to creating commissioned botanical props Ling is available to talk about:*

- sustainability in art
- art supporting the environment
- using art to connect with nature
- art in support of mental health

As an artist and educator Ling uses the craft of paper flower making as a vehicle to encourage a connection to nature.
